

Texas Division of Emergency Management State Situation Report

Event Name	20-0003 COVID-19 2020
Date	March 30, 2020
Time	0900
Operational Period	March 29 to March 30, 2020
Report Number	11

Regions Affected	
Regions Affected	1, 2, 3, 4, 5 & 6
DDCs Active	ALL DDCs are activated

STATEWIDE CURRENT SITUATION: On March 29, the Governor of the State of Texas issued two executive orders expanding the travel restrictions concerning travel from Louisiana. The First order (GA-12) mandates a 14 day quarantine for road travelers traveling from any location in Louisiana. This mandated quarantine does not apply to commercial activity, military service, emergency response, health response or critical infrastructure functions. The second executive order (GA-13) prohibits the release of individuals in custody for or with a history of offenses involving physical violence or threat of physical violence. The Governor also issued a proclamation regarding his prior Executive Order mandating a self-quarantine for individuals arriving from New York Tri-State Area and New Orleans, Louisiana. The Executive Order now includes air travelers arriving from California, Louisiana, Washington, Atlanta, Georgia, Chicago, Illinois, Detroit Michigan, and Miami, Florida.

Governor Abbott on March 29, held a press conference at the State Capitol where he provided new information on the state's health care capacity and issued additional Executive Orders. The Governor announced that hospital beds available for COVID-19 patients have doubled over the past week. He also detailed the joint effort between the state, the Texas Military Department (TMD), and the U.S. Army Corps of Engineers (USACE) to identify and equip additional locations to serve as health care facilities in the event that hospital capacity is exhausted. The first of these sites will be the Kay Bailey Hutchison Convention Center in Dallas.

On March 29, the President of the United States Donald Trump extends federal social distancing guidance for 30 days as scientists warn virus continues to spread.

On March 28, Governor Abbott waived certain regulations allowing for an expedited licensing reactivation process for Advanced Practice Registered Nurses (APRN) in Texas. Under these waivers, an APRN with a license that has been inactive for more than two years, but less than

four years, will not have to pay a reactivation fee, complete continuing education credits, or complete the current practice requirements. For APRNs with a license that has been inactive for more than four years, the reactivation fee and continuing education requirements will be waived.

"Our frontline healthcare workers play a crucial role in Texas' response to COVID-19, and we are working to reduce barriers for former nurses who are ready and willing to serve in our communities," said Governor Abbott. "By expediting the process for APRNs to reactivate their license, Texas is allowing more healthcare professionals to reenter the workforce and assist in our effort to combat COVID-19."

On March 28, Governor Abbott waived certain licensing renewal regulations for Texas pharmacists, pharmacy technicians, and pharmacy technician trainees. With these waivers, the Governor is temporarily extending expiration dates for licenses and temporarily suspending continuing education requirements for pharmacists.

"As our state responds to COVID-19, it is important that Texans continue to have access to the services they depend on to meet their daily needs," said Governor Abbott. "With these waivers, pharmacists and pharmacy technicians can continue to meet the needs of their fellow Texans without potential delays caused by an expired license."

On March 27, as part of the state's ongoing response to COVID-19, Governor Abbott announced the deployment of three National Guard Joint Task Force Brigades. The 72nd Infantry Brigade Combat Team, the 56th Infantry Brigade Combat Team, and the 176th Engineer Brigade will operate ten general support units located throughout the state.

"Whether it's overseas combat, major storms, or deadly viruses, the Texas National Guard is always quick to defend and serve their fellow Texans," said Governor Abbott. "Texans can be grateful that these troops are now standing their post alongside healthcare professionals and first responders on the front lines of this crisis."

The Governor has ordered an initial focus on two critical missions that will directly benefit from Texas National Guard's unparalleled logistics capabilities, medical expertise, communications support, infrastructure maintenance, and transportation assets: assisting drive through testing sites and bolstering the state's healthcare infrastructure.

Over the past week, Guard members have practiced erecting and running drive through testing site locations alongside medical staff to ensure a well-coordinated process that allows Texans to access COVID-19 screenings in a safe, efficient way that also limits contact with potentially infected members of the public.

The Guard is also rolling out support for the state's healthcare infrastructure with medical providers, equipment, and supplies needed to provide access to care. As the response advances, Guardsmen will continue working with partners at the local, state, and national levels to identify and develop additional locations that can be converted to healthcare facilities.

"We are citizen soldiers and we find our highest calling in serving our fellow citizens, no matter where duty calls us," said Major General Tracy R. Norris, the adjutant general of Texas and commander of the Texas National Guard. "This will be no easy task but we have faced difficult times before. With the commitment of our soldiers and support of the community we will show

the world that we are Texas strong and Texas proud, and together we will overcome this challenge."

Governor Abbott also stressed that these taskings will not diminish the Guard's ability to meet operational commitments including the Texas border mission and overseas deployments.

To ensure responding Guard members are healthy, trained medical staff will be attached to each unit and provide screenings before each Guard member is approved for the mission. Any Guard member showing signs of illness will receive treatment and the needed resources to recover while following all requirements outlined by the CDC. This measure will keep responding units healthy and reduce the potential spread of COVID-19.

On March 27, Governor Abbott waived certain Texas Workforce Commission (TWC) regulations to preserve and extend child care capacity for front line workers. These waivers will allow TWC the flexibility to respond to child care needs, and are part of the Governor's work through the Supply Chain Strike Force to strengthen child care infrastructure for critical workers during the COVID-19 response. These waivers ensure that families using child care subsidized through TWC will not lose their slots during this interim period while the state battles COVID-19, and it secures payment to child care providers throughout this time.

"Through these waivers, TWC will be able to better respond to the child care needs of our front line workers in Texas," said Governor Abbott. "We remain committed to working with TWC and other state entities to ensure Texans serving on the front lines of the COVID-19 response have the support they need."

Children within TWC's child care services program will be able to accrue absences due to COVID-19 without impacting ongoing eligibility or provider reimbursements. TWC will also be able to waive parent share of cost requirements and direct local workforce development boards to make supplemental emergency payments to child care programs to offset payments lost due to COVID-19. Additionally, these waivers will allow TWC to temporarily broaden the definition of "protective services" to include children of workers on the front lines of the battle against COVID-19.

On March 26, Governor Abbott announced his request for access to interest-free federal loans (known as Title XII funds) to pay unemployment claims and the accelerated release of funds from the Texas account of the federal Unemployment Trust Fund. Title XII is a federal process that allows states to receive advances (loans) from the federal government to continue to cover Unemployment Benefit payments without disruption.

In a request letter to Secretary of Labor Eugene Scalia, Governor Abbott authorized the Texas Workforce Commission (TWC) to officially request access to these additional funds.

"As job loss and other economic impacts of the COVID-19 pandemic grow, we are committed to drawing upon all available resources to help Texas hardest hit by the crisis," said Governor Abbott. "With claims on the rise, our current balance of unemployment funds is projected to run out by the end of next month, so we must accelerate the delivery of necessary dollars."

Department of Labor approval would allow Texas to apply for federal loans that would be interest-free through the end of the current calendar year. In the past, TWC has taken such

loans then issued bonds to pay them off. In every case, the agency has never missed making a payment to an eligible claimant.

On March 26, Governor Abbott, ordered the following on a statewide basis effective at noon on March 28, 2020:

Every person who enters the State of Texas as the final destination through an airport, from a point of origin or point of last departure in New York, New Jersey, Connecticut, or the City of New Orleans, or in any other state or city as may be proclaimed hereafter, shall be subject to mandatory self-quarantine for a period of 14 days from the time of entry into Texas or the duration of the person's presence in Texas, whichever is shorter. This order to self-quarantine shall not apply to people traveling in connection with military service, emergency response, health response, or critical-infrastructure functions, as may be determined by the Texas Division of Emergency Management. Each person covered under this order to self-quarantine shall be responsible for all associated costs, including transportation, lodging, food, and medical care.

A covered person shall use a form prescribed by the Texas Department of Public Safety (DPS) to designate a quarantine location in Texas, such as a residence or a hotel, and provide a full name, date of birth, home address, telephone number, and driver license or passport information. DPS Troopers, or other approved peace officers, shall collect a completed form from each covered person immediately upon disembarking and verify it against the person's driver license or passport. Providing false information on this form is a criminal offense under Section 37.10 of the Texas Penal Code. Questions about this form should be directed to DPS at (800) 525-5555.

A covered person shall proceed directly from the airport to the designated quarantine location entered on the DPS form. Any covered person exhibiting symptoms of COVID-19 shall be escorted to the designated quarantine location by a DPS Trooper. The covered person shall remain in the designated quarantine location for a period of 14 days or the duration of the person's presence in Texas, whichever is shorter, leaving only to seek medical care or to depart from Texas. During that period, a covered person shall not allow visitors into or out of the designated quarantine location, other than a health department employee, physician, or healthcare provider, and shall not visit any public spaces.

DPS Special Agents will conduct unannounced visits to designated quarantine locations to verify compliance by confirming the physical presence of covered persons. Any failure to comply with this order to self-quarantine shall be a criminal offense punishable by a fine not to exceed \$1,000, confinement in jail for a term not to exceed 180 days, or both.

This executive order shall remain in effect and in full force until modified, amended, rescinded, or superseded by the governor.

On March 26, the Texas Attorney General filed a lawsuit to stop Auctions Unlimited LLC from price gouging Texans for necessary health related supplies including face masks, N95 particulate respirators, hand soap, all-purpose cleaner and disinfectant wipes.

On March 25, Governor Abbott released a statement thanking President Trump for issuing a Major Disaster Declaration (DR-4485) for the State of Texas. This announcement comes after the Governor requested the declaration—citing the need for additional federal assistance to

save lives, to protect property, public health, and safety, and to lessen or avert the threat of COVID-19.

“Texas is aggressively pursuing and implementing all necessary strategies to limit the impact of COVID-19, and I thank President Trump for his swift action to issue a Major Disaster Declaration for the State of Texas,” said Governor Abbott. “The President’s declaration opens up new sources of funding for individual and public assistance that will help Texas respond to this public health emergency and protect public health and safety.”

Governor Abbott has temporarily waived certain hospital licensing rules and the Texas Health and Human Services Commission (HHSC) has adopted an emergency rule to meet Texas’ need for additional hospital capacity while the state responds to COVID-19. These actions allow for certain facilities that have pending licenses or facilities that have been closed for no more than 36 months to come online under existing hospital building licenses. These facilities will be administered and operated by hospitals with existing licenses. The waivers also remove certain mileage restrictions which will allow hospitals to operate additional facilities that are more than 30 miles away from the main licensed hospital.

Governor Abbott has waived certain regulations from the Texas Board of Nursing regarding licensing renewal and subsequent fees for nurses in Texas. The Governor’s waiver authorizes a six-month grace period for nurses with expired licenses. This grace period will allow nurses who are otherwise in good standing to continue practicing and will give them additional time to renew their license without added fees and penalties.

March 24, Governor Abbott has directed the Texas Department of State Health Services (DSHS) to issue guidance allowing restaurants to sell bulk retail products from restaurant supply chain distributors directly to consumers provided that such foods are in their original condition, packaging, or presented as received by the restaurant. Under this guidance, restaurants will be able to sell items like packaged meat, fruit and vegetables, and dry goods directly to the public to prepare and consume at home. This guidance will allow distributors and restaurants to provide Texans another source of food outside of grocery stores and prepared food from restaurants. These bulk food items would be available for purchase through restaurants offering drive-thru, delivery, pick-up, and curbside service.

On March 23, Governor Abbott sent a letter to President Trump requesting a presidential declaration of a major disaster in Texas based on the continued impact of COVID-19. This action follows on the heels of a series of proactive measures, including declaring a state of disaster for all 254 Texas counties on March 13, 2020. Filed in accordance with the Stafford Disaster Relief and Emergency Assistance Act, the request is based in part on Governor Abbott’s conclusion that the ongoing COVID-19 incident is of such severity and magnitude that supplementary federal assistance is necessary to save lives, to protect property, public health, and safety, and to lessen or avert the threat of a larger disaster.

In his letter, the Governor specifically requested Individual Assistance Crisis Counseling and Public Assistance Category B (Emergency Protective Measures) including Direct Federal Assistance for all 254 counties in Texas, noting that, as of March 23rd, Texas has 352 confirmed cases of COVID-19 with eight related deaths.

Governor Abbott's letter also detailed the state's efforts to mitigate the impact of COVID-19, including executing the state's emergency management plan and issuing multiple executive orders, in accordance with guidelines from President Trump and the Centers for Disease Control and Prevention (CDC). These include:

- mandatory avoidance of social gatherings of more than 10 people;
- mandatory avoidance of dine-in eating and drinking at bars or restaurants, and of gyms or massage establishments;
- prohibition on non-critical visits to nursing homes, retirement or long-term care facilities; and
- temporary closure of in-person school operations.

The Governor has also issued multiple waivers of state law to remove barriers limiting the response to this pandemic and activated the Texas National Guard to be prepared to assist with response efforts for COVID-19. To date, more than 466 Texas jurisdictions have submitted local disaster declarations, a number that is expected to rise. The requested federal aid would be used to overcome the current shortage of personal protective equipment (PPE), needed medical equipment and testing supplies as well as looming shortages of hospital beds, medical equipment, and a healthy and adequate cadre of medical personnel.

The letter also designated Chief Nim Kidd as the Governor's Authorized Representative and State Coordinating Officer, tasked with continuing his coordination with FEMA on all matters related to COVID-19.

On March 22, the governor signed an Executive Order for hospitals to increase unused bed capacity without submitting an application or associated fees. This precautionary measure will help ensure Texas hospitals across the state have adequate care capacity for COVID-19 patients. The order allows for increased occupancy of hospital rooms to treat more than one patient in a room. The order also postpones all surgeries that are of non-life saving category or those who would use up PPE. The order also creates a Supply Chain Strike Force to ensure all health care facilities have the supplies and resources they need. The task force will secure the needed personal protective equipment (PPE) and food for medical personnel, first responders and those who contract COVID-19. This executive order takes effect immediately and remains in effect until April 21.

March 20, The U.S. Food & Drug Administration (FDA) released an announcement that warns consumers about unauthorized fraudulent coronavirus tests. The agency is beginning to see unauthorized fraudulent test kits that are being marketed to test for COVID-19 in the home. The FDA has not authorized any test that is available to purchase for testing at home for COVID-19. The FDA will take appropriate action to protect consumers from bad actors who take advantage of a crisis to deceive the public by marketing tests that pose risks to patient health. Enforcement is being stepped up at ports of entry, including International Mail Facilities, to ensure these fraudulent products that originate outside the country do not enter through our borders. Reports may be sent via email to: FDA-COVID-19-Fraudulent-Products@fda.hhs.gov.

On March 19, Governor Abbot issued four Executive Orders to mitigate the spread of COVID-19 in Texas.

Order No. 1 - In accordance with the Guidelines from the President and the CDC, every person in Texas shall avoid social gatherings in groups of more than 10 people.

Order No. 2 - In accordance with the Guidelines from the President and the CDC, people shall avoid eating or drinking at bars, restaurants, and food courts, or visiting gyms or massage parlors; provided, however, that the use of drive-thru, pickup, or delivery options is allowed and highly encouraged throughout the limited duration of this executive order.

Order No. 3 - In accordance with the Guidelines from the President and the CDC, people shall not visit nursing homes or retirement or long-term care facilities unless to provide critical assistance.

Order No. 4 - In accordance with the Guidelines from the President and the CDC, schools shall temporarily close.

This executive order does not prohibit people from visiting a variety of places, including grocery stores, gas stations, parks, and banks, so long as the necessary precautions are maintained to reduce the transmission of COVID-19. This executive order does not mandate sheltering in place. All critical infrastructure will remain operational, domestic travel will remain unrestricted, and government entities and businesses will continue providing essential services. For offices and workplaces that remain open, employees should practice good hygiene and, where feasible, work from home in order to achieve optimum isolation from COVID-19. The more that people reduce their public contact, the sooner COVID-19 will be contained and the sooner this executive order will expire.

This executive order supersedes all previous orders on this matter that are in conflict or inconsistent with its terms, and this order shall remain in effect and in full force until 11:59 PM on April 3, subject to being extended, modified, amended, rescinded, or superseded by me or by a succeeding governor.

Governor Abbott also announced that the U.S. Small Business Administration (SBA) has included the entire state of Texas in its Economic Injury Disaster Declaration and granted access to its Economic Injury Disaster Loan (EIDL) program, which will provide long-term, low interest loans to qualifying businesses across the state. The Governor's request was driven by COVID-19-related economic losses across Texas related to major event cancellations, loss of walk-in customers, depletion of stock from suppliers, and client cancellations. Governor Abbott also commented on the SBA's rapid turnaround to a request he made by letter just three days ago. Texas small businesses who believe they may be eligible for an SBA EIDL should visit www.sba.gov/disaster where they can directly apply for assistance. The online application is the fastest method to receive a decision about loan eligibility.

The Commissioner of the Department of State Health Services, Dr. John Hellerstedt, issued a Public Health Disaster Declaration in Texas.

Governor Abbott, March 18, issued a waiver that will allow restaurants to deliver alcoholic beverages with food purchases to patrons, including beer, wine, and mixed drinks. The Governor also directed the Texas Alcoholic Beverage Commission (TABC) to waive certain provisions to allow manufacturers, wholesalers, and retailers of alcoholic beverages to repurchase or sell back unopened product.

These waivers are in response to the financial hardship caused by COVID-19 that has disproportionately affected the hospitality industry.

"The State of Texas is committed to supporting retailers, restaurants, and their employees," said Governor Abbott. "These waivers will allow restaurants to provide enhanced delivery options to consumers during this temporary period of social distancing."

Under this waiver, effective immediately, restaurants with a mixed beverage permit may sell beer, wine, or mixed drinks for delivery as long as they are accompanied by food purchased from the restaurant.

The buy-back waiver allows alcohol distributors and manufacturers to repurchase excess inventory from restaurants, bars, and clubs affected by event cancellations due to COVID-19.

On March 18, Governor Abbott, announced that Texas Department of Public Safety (DPS) Driver License Offices across the state are closing immediately. This temporary closure will not apply to those seeking an initial Commercial Driver License (CDL). DPS offices that provide CDL testing will remain open solely for the purpose of providing initial CDLs. Visits will be by appointment only, and can be scheduled by emailing [cldappointments\[@\]dps.texas.gov](mailto:cldappointments@dps.texas.gov). This exception will allow commercial drivers to continue to ship goods across the state of Texas.

Governor Abbott announced that he has directed the Texas Department of Public Safety (DPS) to temporarily waive expiration dates for Driver Licenses, Commercial Driver Licenses, and other identification forms. This action falls within the Governor's State of Disaster Declaration and is part of the ongoing effort to reduce to spread of COVID-19.

The U.S. Food and Drug Administration (FDA) took steps to help prevent disruptions in the food supply-chain by issuing a temporary policy for FDA Food Safety Modernization Act (FSMA) supplier verification onsite audit requirements during the coronavirus (COVID-19) public health emergency.

The virus that causes coronavirus disease 2019 (COVID-19) is stable for several hours to days in aerosols and on surfaces, according to a new study from National Institutes of Health, CDC, UCLA and Princeton University scientists in *The New England Journal of Medicine*.

Governor Abbott announced that he is activating the Texas National Guard in response to the novel coronavirus outbreak in the state.

Governor Abbott issued a proclamation suspending provisions of the Texas Election Code to allow political subdivisions to postpone their 2020 local elections. This means local governments now have the ability to postpone their May 2, 2020 elections until November 3, 2020.

Governor Abbott has announced that Texas is waiving certain rules relating to parking placards for persons with disabilities. The aim of waiving this requirement is to help reduce preventable in-person contact and slow the spread of COVID-19. This will allow Texans to avoid penalties for failure to renew a parking placard, but does not waive the requirement to have a placard in order to park in an accessible parking spot.

Governor Abbott and the Texas Education Agency (TEA) announced a collaboration with local education agencies (LEA) on the Texas Students MealFinder Map which will allow Texas parents to locate LEA facilities serving meals in their communities. This searchable online map will officially launch on Friday, March 20, and will include the address of each facility, as well as days and times meals will be served. The map will be available on the TEA website.

Childcare Licensing office in HHSC is working with Caesar Lopez, associate General Counsel for the Texas Hospital Association. A waiver has been submitted to Governor Abbott's office to ease regulations during the COVID-19 incident. For up to 20 days, a day care can be operated without a child care license without penalty. They strongly encourage active and progressive safety and security for the center and the children.

On March 21, the US and Canada will temporarily restrict all non-essential travel across the US-Canada land border. The measure will be in place for 30 days, at which point it will be reviewed by both parties.

Governor Abbott announced that he is temporarily suspending certain regulations to ensure that Texans will have continued access to their pharmacists as the state responds to COVID-19. The Governor's actions will allow pharmacists to conduct telephonic consultations, and remove regulatory barriers so that pharmacies can operate at full strength.

Governor Abbott recognized the difference in the number of positive COVID-19 tests reported by the Texas Department of State Health Services and the Johns Hopkins University data dashboard, saying the Johns Hopkins provides "additional cases that may not yet be confirmed" and may include cases of people who have been brought into the state from cruise ships. Medical groups have offered up the masks and medical gear, including the Texas Society of Plastic Surgeons and the Texas Medical Association. Dr. Luis Rios, president of the Texas Society of Plastic Surgeons, delivered 1,000 masks, 1,000 gloves and hundreds of gowns, the governor said.

Governor Abbott held a press conference to provide an update on incoming supplies of Personal Protective Equipment (PPE) and other resources to aid Texas' response to COVID-19. The Governor announced that the newly established Supply Chain Strike Force has already secured more than \$83 million of purchase orders for essential supplies. Additionally, the Governor announced that the Texas Division of Emergency Management (TDEM) will begin receiving 100,000 masks per day by the end of this week and the Supply Chain Strike Force will begin receiving an additional 100,000 masks per day by the end of next week—meaning the State of Texas will soon be receiving more than one million masks per week.

The Governor also announced the launch of an online portal run by the Supply Chain Strike Force to streamline the process and validation of leads for more supplies. The portal, accessible through www.texas.gov, will serve as an intake process for those wanting to provide valid leads on PPE and donations. The portal also serves as a portal for those wanting to donate supplies, services, or your time—including medical professionals and nurses looking to volunteer.

The Governor also issued an Executive Order to better track both hospital bed capacity and COVID-19 test results across the state. The Executive Order requires all hospitals, excluding psychiatric hospitals, to submit daily reports on hospital bed capacity to the Texas Department of State Health Services (DSHS) who will then share this information with the Centers for

Disease Control and Prevention (CDC). The order also requires every public or private entity utilizing FDA-approved COVID-19 tests to submit daily reports of all results to the local health department and DSHS who will then share this information with the CDC.

On March 17, Governor Abbott waived certain regulations and directed that the Texas Department of Insurance (TDI) issue an emergency rule, all relating to telemedicine care for patients with state-regulated insurance plans to help doctors across Texas continue to treat their patients while mitigating the spread of COVID-19. The suspensions and emergency rule will work together to allow telemedicine visits for patients with state-regulated plans to be paid the same as in-office visits for insurance purposes. These actions build upon waivers the Governor issued last week of portions in the Occupations Code to expand provider flexibility in providing medical services over the phone.

On March 14, Governor Abbott, directed the Texas Medical Board (TMB) and the Texas Board of Nursing (TBN) to fast-track the temporary licensing of out-of-state physicians, physician assistants, certain retired physicians, nurses, and other license types to assist in Texas' response to COVID-19.

The Governor suspended State of Texas Assessments of Academic Readiness (STAR) testing for the state. Governor Abbott has suspended various provisions that require government officials and members of the public to be physically present at a specified meeting location. This temporary suspension will leave important open-meeting protections in place. Governor Abbott will allow virtual and telephonic open meetings to maintain government transparency.

The President's unprecedented Nationwide Emergency Declaration, and the Secretary of Health and Human Services' (HHS) declaration of a Public Health Emergency for COVID-19 establish that exigent and emergency circumstances currently exist. For the duration of the Public Health Emergency, which began on January 27 as determined by HHS, local governments, nonprofits, and other non-state entities may proceed with new and existing noncompetitively procured contracts in order to protect property and public health and safety, or to lessen or avert the threats created by emergency situations for 1) Emergency protective measures under FEMA's Public Assistance Program and 2) Use of FEMA non-disaster grant funds by non-state recipients and sub-recipients to respond to or address COVID-19.

On March 13, the President of the United States Donald Trump declared that the COVID-19 global pandemic is a national emergency.

On March 13, the Governor of the State of Texas Abbott issued a proclamation certifying that COVID-19 poses an imminent threat in the state and declared a state of disaster for all 254 counties in Texas.

The Texas Department of Agriculture (TDA) Commissioner Sid Miller announced TDA has been granted flexibility from the federal school meal program to allow Texas schools to continue to provide meals to students even if temporarily closed.

The CDC and Texas Department of State Health Services (DSHS) coronavirus webpages are reliable sources of information. DSHS is monitoring the Texas situation seven days a week. They are working closely with emergency response agencies, local health departments and the CDC. The most up-to-date information and guidance can be found via the Centers for Disease

Control and Prevention Coronavirus Disease 2019 (<https://www.cdc.gov/coronavirus/2019-ncov/index.html>). The Coronavirus Task Force continues holding frequent national briefings. DSHS COVID-19 Call Center 1-877-570-9779 Hours 7:00 a.m. to 6:00 p.m. Monday thru Friday.

(1) DSHS will update the state case count each day by 12:00 Noon Central Time, the data displayed is current as of 8:00 PM the prior day.

OPERATIONAL PRIORITIES:

1. Protect life and property.
2. Support rapid & effective response.
3. Collect and disseminate accurate incident information to improve decision-making.
4. Accurately track incident costs associated with assigned resources for cost recovery.

5. Expand and maximize bed capacity.
6. Develop alternative care sites to support local governments and the health care systems.
7. Acquire supplies/equipment to support health care and testing.
8. Protect vulnerable populations.
9. Ensure visibility on progression of the disease.
10. Support local governments.
11. Set communications messaging for the event based of science and the circumstances.

Region 1 (Includes DDCs 4, 5, 6, and 22)

Texas A&M AgriLife Extension (TEEX): The Texas Extension Disaster Education Network (EDEN) website <https://texashelp.tamu.edu> has been updated with educational information on Corona virus prevention and management, financial issues and mental health for use by the public. Recent additions to the site include food resources and animal health. County AgriLife personnel have access to the EDEN website to utilize educational information for county programs on Covid-19. Slide presentations and videos are being developed for use by county Extension agents to demonstrate handwashing and disinfecting. Thirty Common COVID- 19 Myths and Responses has been published for viewing on the EDEN site. The Texas Extension Disaster Education Network (EDEN) website <https://texashelp.tamu.edu> website has had 8,413 page views on Coronavirus information alone.

Texas A&M AgriLife Extension also has articles on (and now has a section devoted to) Coronavirus at <https://agrilifetoday.tamu.edu/tag/coronavirus/> . To date, this site has received 5,602 page views since its inception in late February.

DDC 4 – Hurst (Includes: Denton, Erath, Hood, Johnson, Palo Pinto, Parker, Somervell, Tarrant and Wise Counties)

Tarrant County:

City of Fort Worth: The Fort Worth Fire Department (FD) has opened a COVID-19 testing center available to front line health care workers including physicians, nurses, medical assistants, and other health professionals. Call the Infections Disease Coordinator at the Fort Worth Joint Emergency Operations Center at (817) 714-9709 between 8:00 AM and 5:00 PM.

DDC 6 – Tyler (Includes: Anderson, Camp, Cherokee, Gregg, Harrison, Henderson, Marion, Panola, Rains, Rusk, Smith, Upshur, Van Zandt and Wood Counties)

Rusk County: Beginning Monday March 30, 2020 the courthouse and other county offices are going to be closed to walk-in, except by appointment, the tax office will have the drive thru open. The County encourages people to conduct their businesses online. Rusk County Commissioners Court will be moved to the district courtroom to allow for better social distancing. Rusk State Hospital is only taking walk-ins from any other hospital. They are currently undergoing construction. Everyone who comes through the construction gate is being scanned. Anyone feeling ill or with a fever is being turned away.

Smith County:

City of Tyler: Tyler Transit is experiencing fewer riders and may further alter routes, if needed. At Tyler Pounds Field, American Airlines is canceling flights for the next two days, followed by a

decrease in service after that. Tyler ISD are expecting to feed in excess of 3,000 people after adding two sites.

Region 2 (Includes DDCs 13, 14, 15, 16 Houston, 16 Texas City, 16 Conroe, and DDC Pierce)

DDC 14–Lufkin (Includes: Angelina, Houston, Jasper, Nacogdoches, Newton, Polk, Sabine, San Augustine, San Jacinto, Shelby, Trinity and Tyler Counties)

Angelina County: The City of Lufkin amended their Emergency Regulations on March 27, making the new changes effective at 11:59 PM March 28.

Region 3 (Includes DDCs 19, 20, 21, and 24)

DDC 19 – Laredo (Includes: Jim Hogg, Starr, Webb and Zapata, Counties)

Zapata County: Zapata County established a youth curfew on March 27.

DDC 20 Corpus Christi:

Bee County: A supplement was added to the joint order, providing additional guidance for religious institutions, and cleaned up language regarding critical infrastructure.

Live Oak County: Live Oak County has Pandemic Guidelines for all department heads. The Live Oak County Health department is monitoring the situation through their local health clinics. All first responders have been outfitted with PPE to keep them safe if they fill come in contact with someone that is ill. Our local stores were asked what programs they had for cleaning grocery carts, most have a plan in place, but the local fire departments have started a program to decon the carts after the stores close. This program started Saturday night (3/28). The fire departments also have set up decontamination stations for all reusable PPE. The Health Department has ordered a product called (Envirocleanse) A known product used to kill COVID-19 virus, ordered a 55-gallon drum direct from the vendor.

Nueces County:

City of Corpus Christi: A press briefing is scheduled for 5:00 pm on Monday, March 30th. Schools remain closed with most districts making arrangements for in-home instruction.

Port of Corpus Christi: March 30th will be a meeting with ship agencies that service the port to discuss and establish procedures regarding crew changes and compliance with the governors' self-quarantine order.

DDC 21 – Weslaco (Includes: Cameron, Hidalgo and Willacy Counties)

Hidalgo County: Pharr-San Juan-Alamo ISD conducted Child Nutrition Services “Grab Lunch Meals” to students. Approximately 4,800 breakfast/lunch sack meals were distributed via drive thru. 4,000 meals were donated to the Rio Grande Valley Food Bank.

Region 4 (Includes DDCs 8, 9A, 9B, and 10)

DDC 8 – El Paso (Includes Brewster, Culberson, El Paso, Hudspeth, Jeff Davis, and Presidio Counties)

El Paso County: US Army Corps of Engineers (USACE) is in contact with local OEM to conduct an assessment of vacant hospital facilities to sanitize and clean if needed to.

DDC 10 – San Angelo (Includes: Coke, Concho, Crockett, Irion, Kimble, Mason, McCulloch, Menard, Reagan, Schleicher, Sterling, Sutton and Tom Green Counties)

In Response to Governors Directive DPS in District 10 are monitoring the San Angelo Airport and addressing passengers identified in the Directive with information and reporting requirements.

Region 6 (Includes DDCs 11, 12, 17, 18A, 18B, and 23)

DDC 12 – Austin (Includes: Bastrop, Burnet, Caldwell, Fayette, Hays, Lee, Llano, Travis, and Williamson Counties)

Williamson County: The County is working to finalize a commodity tracking process, establish and secure a point of distribution (POD). Emergency Medical Service (EMS), along with other departments performed a site survey of a Dell facility for use as a potential emergency medical center.

DDC 17 Victoria:

Calhoun County: On March 26, the County enacted a County wide curfew from 10:00 PM to 4:00 AM daily.

FINAL COMMENTS: The State Operations Center (SOC) remains at Level II (Escalated Response Conditions). The Texas Division of Emergency Management (TDEM) continues to monitor the situation and will provide additional situation reports as needed.

The four levels of SOC activation are:

- Level I (Emergency Conditions)
- Level II (Escalated Response Conditions)
- Level III (Increased Readiness Conditions)
- Level IV (Normal Conditions)

This Situation Report can be found on the TDEM webpage at: <https://tdem.texas.gov/situation-reports/>

W. Nim Kidd, MPA, CEM
