Re: Angelina County Waste Management Center - Angelina County
Municipal Solid Waste (MSW) - Permit No. 2105A
Permit Modification – Groundwater Monitoring
WWC Nos. 11994853, 11995083; RN101947323 / CN600833511

Dear Judge Suiter:

We have received your applications for MSW permit modifications dated March 18, 2008, for changes to the Groundwater Sampling and Analysis Plan (GWSAP) and changes to the groundwater monitoring system design at the referenced facility. The applications were submitted on your behalf by Hydrex Environmental, Inc., of Nacogdoches, Texas. The purpose of the requested changes is to address recent revisions to Title 30 Texas Administrative Code (30 TAC), Chapter 330, Subchapter J (relating to Groundwater Monitoring and Corrective Action).

Thank you for your applications. Please be advised that we recently finalized our review procedures which resulted in a delay in our technical review of your applications. We require additional time, up to 30 days, to complete our evaluations. The extension of our review time will not result in any reduction of the time allowed applicants to respond to any identified deficiencies. We will contact you when we complete the technical reviews.

You do not need to respond to this letter, however, if you have any questions about this or other MSW matters, please contact me by telephone at (512) 239-6228, or in writing at the address on our letterhead (please include our mail code, MC 124 in the address).

Sincerely,

A handwritten signature in black ink, appearing to read "Jeff Davis".
